

Dear Valued Client

Although we are the leader in our industry, we are not present at the time of your garment creation. In the past few years, we have noted some outcomes that do occur after cleaning.

The results cannot be predetermined nor tested but are possibilities that you, the garment owner, must be aware of. If possible, we do try to remedy the outcome to the best of our ability. However, certain results are not reversible.

We, at Stitch It, will stop at nothing to give you the quality you are accustomed to. We want you, our valued customers, to make informed decisions when it comes to your garments.
